Steve,

I'm Rick Webre, Director of the Ascension Parish Office of Homeland Security and Emergency Preparedness in Gonzales, Louisiana. I'm very interested in assisting you in any way that I can involving this EPA initiative. My jurisdiction is very heavy in the petrol-chemical industry containing 33 TIER II sites. We have a very robust LEPC and coordinate extremely well with local industry; however, it is not without challenges. Last month I testified before the US Senate Committee on Environment and Public Works on this subject and I am willing to offer my time and experience as a local emergency manager and LEPC chairman to assist with this endeavor. Can you direct me to the person that will be responsible for this initiative in region 6? I can be reached on my cell phone at (b) (6).

Best Regards

Rick Webre
